

Marking OOS and INS on product list

OOS = Out of stock (not present on shelf)

INS = in stock (is present on shelf)

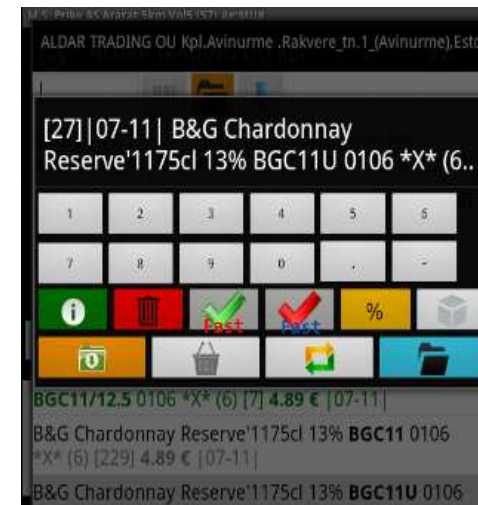

OOS-INS marking is perfumed on product Order List.

OOS-INS can be marked in several ways – depending on your setup , user can mark products which are available or products which are missing from shelf-display .

Select customer
Open ordering window
Select product which you like to mark

Use CHECK button(s) to enter OOS-INS marking
“Green” – mark what we see – “Red” mark what is missing

Check buttons has two states FAST – SLOW-
switch between modes by holding finger on button

GREEN OK button allows to mark assortment as OK

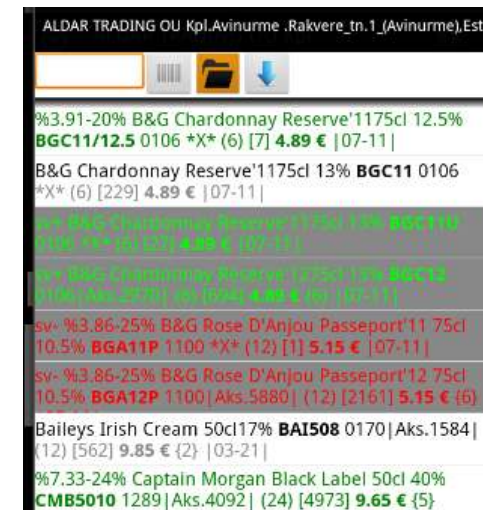

III. When Using SLOW - dialog will appear for getting detailed data .

1. enter Comment to data
2. enter Product Price
3. If product in ACTION then mark
4. enter numbers of facings
5. enter status OOS - INS

IV. Marked product have RED (oos) or GREEN (ins) text color

For sending data → Export → **Send**
 On next visit also previous markings are shown on list
